The Black Gate, Newcastle-on-Tyne, is a structure of considerable strength, erected in 1248, which formed the principal entrance to the outer walls of the castle. This interesting building, from which the town derives its name, was erected about A.D. 1172 on the site of an earlier Norman building—the original "New Castle."

Printed in England

We wish you all a very happy xmas & prosperous new year. Nellie received your letter this morning she is delighted with it & thanks you very much also thanks Jennie & Annie for us. We think the album splendid all Doris is to all we are all fairly well & Bella is Rushin Bobby many much-love xmas Sunday with love from Ellie
